

Solar Modules & Home-use Solar System

太阳能光伏组件与家用供电系统

- The high power modules is made from 10Wp to 160Wp
- Mainly applying to independent photovoltaic power station, communication power-supplying system, user's roof system for merging into public power net, user's illumination system, cathodic protect, solar street lamp, signal light power supplying, etc
- Long lifespan, up to 30 years of using duration.

- 大功率组件从10W至160W
- 主要用于独立光伏电站、通讯电源系统、用户屋顶并网系统、用户照明系统、阴极保护、太阳能路灯、信号灯电源等等
- 使用寿命30年以上
